

## TouchNet Managed Data Service

From administrative permissions and access privileges to student purchases and campus services usage, data is ubiquitous on today's higher ed campuses. TouchNet Managed Data Service empowers schools to manage and share data with automated, two-way data syncing among student information systems (SIS) and TouchNet OneCard and ancillary campus systems.

### How It Works

TouchNet Managed Data Service is a cloud-based solution that enables seamless cross-platform data sharing among your SIS, OneCard and ancillary campus systems. Thanks to automated, transparent sharing, schools gain full visibility of the smart data needed to more efficiently customize project plans and meet campuswide requirements.

By automating manual tasks and enabling two-way communication among campus systems, TouchNet Managed Data Service helps:

- Reduce IT workload
- Increase operational efficiencies
- Create a single entity responsible for ongoing management
- Provide a solid foundation for future integrations

### Easily Sync Student Data

By syncing data to and from schools' SIS, OneCard and other ancillary systems, TouchNet Managed Data Service improves a variety of campus services and delivers the seamless campus payment and ID system students expect.

Securely syncing with OneCard and other ancillary campus systems makes it easy for administrators to create accounts, assign permissions and credentials, add funds and more without adding to IT workload, knowing their data will seamlessly pass to all associated ancillary systems.

### Harness the Power of Data Integration with a Fully Managed Solution

TouchNet Managed Data is a fully managed service that puts the power of our broad expertise to connect various systems on campus to work for you. Beyond greater work efficiencies and improved campuswide experiences, TouchNet Managed Data Service seamlessly transforms OneCard data into a constantly updated extension of your campus transaction ecosystem. This at-a-glance composite of campus data can inform business decisions and improve the experience for staff and students that will benefit institutions well into the future with no additional workload.

Learn more about the campuswide advantages of TouchNet Managed Data Service. Contact your Regional Sales Manager or visit [www.touchnet.com/about-us/contact-us](http://www.touchnet.com/about-us/contact-us).

TouchNet is a leading provider of integrated, comprehensive, and secure commerce and credential solutions for colleges and universities. Institutions of higher education rely on TouchNet to unify and secure payments, permissions, and other related business transactions campus wide. TouchNet's unmatched integration, transparency, and security gives institutions greater control over transactions, costs, and compliance, while providing greater operational efficiencies and self-service access to real-time information. TouchNet is a Global Payments company.
